Die Idee / The idea

With your aid, we would like to create a book, that represents our neighbourhood in Buchholz with all its locations!

The value is: different perspectives, experiences, traditions and anecdotes. By providing photos, quotes, wishes or short stories regarding different topics.

We do not seek to have an information brochure, but a book that creates a sense of community. The project is organised by the Lutheran-Protestant parishes in the region Buchholz, the charitable organization of the Lutheran-Protestant parishes Hittfeld and Winsen and the “Protestand Youth Buchholz”. Contact persons are Johanna Ascheberg (social worker) and Isabelle Willemsen (deaconess and social worker –to be).

“We are looking for quotes, photos, traditions and other creative contributions. Perspectives on and from Buchholz and the region!”

Isabelle Willemsen

The aim is, especially in times of Corona, to read from another, making experiences and by this, getting to know more about Buchholz and its people. We would like to expand your perspectives: “Which kind of human types, clubs and traditions exists here; what should be preserved and kept in memory with regard to former times; what are your wishes for the future? How is the daily life in Buchholz? How was the feeling to arrive in Buchholz as a newcomer and why did you come here?”

This project addresses all people in and around Buchholz: Singles, families, couples, people with and without migration experience, young and old, members from clubs or initiatives, people with or without disabilities, newcomers and long-standing people from Buchholz.

Basically everyone from Buchholz and the region, who would like to contribute!

“Buchholz is diverse and we would like to catch as many impressions as possible! You and your contributions are the heart of it.”

Johanna Ascheberg

How to contribute?

1. Be creative and write a text – a quote or a short story.
2. Have a look through your photo gallery – share a beautiful picture from Buchholz or its surrounding
3. Inspect the given categories and decide to which one your contribution would suit best.
4. Send us your contributions via mail and let us know, if you would like your name connected with or prefer to stay anonymous and in which category your entry should appear (compare following info).
